

~~SECRET~~

WORKING PAPER

26 OCT 88

TASKER-FDR 011

1. BACKGROUND: Your previous two sessions against the target object revealed such conceptual representations as (object made of) strong, lightweight, heat resistant material; object (needed) to be shaped during manufacturing process due to crystalline nature. Moreover you indicated the target object perceived as being a vehicle, rounded, with a control panel.

2. ENCRYPTED COORDINATES: 110698/259179.

3. MISSION: (Grab this tiger by the tail and tell me the following:)

a. Access and describe (the sucker) in terms of appearance and dimensions. (Sketch).

b. If this is a vehicle, it has a power source. How is the power source used; what happens when it is in motion.

c. Follow it and tell me what it does and ~~why~~. Follow until the power source is exhausted.

d. Why did it stop?

e. Draw me a country flag (rectangular); fill in color and emblems. Thanks.
